

# SHAPE

## ELECTION PROGRAM

---

Faculty council '20 - '21

## SHAPE OUR FACULTY!

---

**SHAPE**, founded in 2018, is a representative party that offers an experienced and fresh look at the state of affairs at Maastricht University. In this infographic you will find our view on challenges the faculty faces.

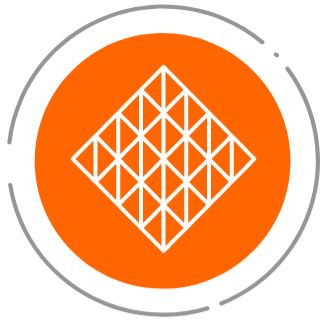

- This year, our list of candidates consists of new candidates who provide a **fresh perspective** as well as current Faculty Council members to guarantee **continuity**.

## COMMUNITY FEELING

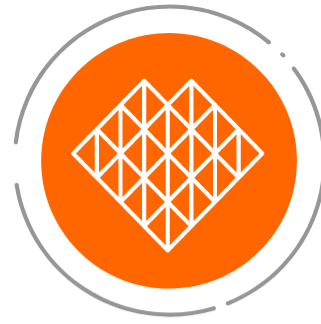

We see opportunities to increase **the community feeling** within and between the different disciplines and faculties.

Additionally, we see possibilities to strengthen our ties with the **citizens of Maastricht** and surrounding areas; our community is not restricted to the boundaries of our campus.

### **Organization of education**

Increased collaboration: within and between faculties, intra- and extracurricular.

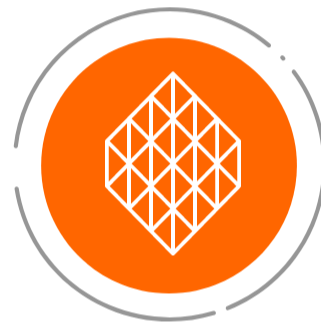

### **Inclusivity**

A welcoming feeling for all FHML-students, regardless of their background.

### **Facility improvements**

Sufficient formal and informal (ergonomic) study places.  
And of course: a faculty bar!

### **Transparency and visibility**

Clear communication and approachableness, not only in times of crisis.

## STUDY IMPROVEMENT

Education is continuously evolving. We want to optimize **digitization**. Additionally, we stand for **program-specific improvements**.

As a student, you must increasingly be able to construct your own **educational package**. We want you to benefit from the additional funds as describes in the **Quality Agreements**.

Conclusively, we understrike the importance of **international education** and think language courses should be accessible for all students.

# HEALTHY CAMPUS

The FHML is a faculty in which health is paramount. We think all people in our community should be able to attain **optimal health**.

Both in and outside education, the FHML needs more awareness for **sustainability**. Possibilities regard electives on this topic as well as optimal waste separation.

SHAPE stands for a **viable smoking policy, healthy and varied** catering and **stimulating movement**.

Additionally, we underscore the importance of **mental health**, especially now stress and burnout are prevalent among students. We think student psychologists should always be approachable.
